THE SINGER MANUFACTURING COMPANY.

SINGER'S GENUINE SEWING-MACHINES have innumerable points to show in favour of their World-renowned Sewing-Machines. They being too numerous to mention (can be had on application) it would be sufficient for us to state that after the Singer Manufacturing Company had reaped quite a harvest of honours at the late American Continental Exhibition, a scroll of honour was conferred by the Committee of Ladies. One of the Resolutions was—"That to the Singer Manufacturing Company belongs the credit of producing and displaying one of the finest collections of Sewing-Machine Work ever exhibited, and that this display demonstrates the wonderful capacity of the Singer Sewing-Machines to perform every range and quality of sewing required by the wants of the human family."

The company have a character at stake and feel bound to produce a Sewing-Machine in every way efficient and durable. Of all Sewing-Machines the Singer is the most copied by imitators. The conclusion is irresistible, that if a principle of construction be selected by a horde of imitators as the best to copy a genuine article by the original Company must be the best to purchase. Imitation Machines are sold under various fictitious names to mislead people that they are Singer, or same as Singer.

Note.—Grand reduction in prices.

From 10 to 20 per cent.

Price lists and Instruction free.

Every duplicate part sold separate.

For cash or by easy payments.

Prices from Rs. 56 to Rs. 220. 10 per cent. discount for cash.

Machines thoroughly cleaned and repaired.

To avoid deceptions and machines of inferior make (at a little lower price) buy the Genuine Singer from the Company's only Office in Bombay, at 2, Church Gate-street, Fort, Bombay.

THE "BULL DOG'S HEAD" BRAND.
(BASS'S ALE AND GUINNESS'S STOUT.)

READ BROTHERS, of London, request purchasers of their Bottled Ale and Stout to ask for "THE DOG'S HEAD BRAND," because another and totally distinct Bottler uses the figure of a Bull Dog, and thus two bottlings of entirely different character may both be called "BULL DOG."

The original "Bull Dog" mark is the registered property of READ BROTHERS, and their bottling still often goes by that name, but the title of "DOG'S HEAD BRAND" is theirs exclusively and is the only one that is protected by the Injunction of the Lords Justices of England.

NEW TESTIMONIALS
ON THE
EFFICACY OF THE REMEDIES
OF
GRIMAULT & COMPANY,
PHARMACEUTICAL CHEMISTS.
PARIS : 8, RUE VIVIENNE, 8, PARIS.

DISEASES OF THE CHEST CURED.

—"I compliment you for your SYRUP OF HYPOPHOSPHITE OF LIME. I employ it daily amongst adults or children who are attacked WITH DISEASES OF THE LUNGS AND LIVER. It outvies every other preparation of the day.

J. H. LANG, Medical Doctor,
Lake Kellambete, Zerang, Victoria."

GRIMAULT & CO.'S
MATICO CAPSULES & INJECTION

Renowned Physicians prescribe GRIMAULT'S MATICO as the most active, and at the same time the most inoffensive, remedy in the treatment of ACUTE AND CHRONIC DISEASES. It has not, like COPAIBA, the inconvenience of giving NAUSEAS. The Injection is used in recent, and the Capsules in the more chronic, cases.

CONSUMPTION CURED.

—"I have published several well-confirmed cases of PHTHISIS PULMONALIS, one of which, with the complete destruction of one of the lungs, cured by the use of DUSART'S WINE AND SYRUP, together with raw meat as food.

DR. DELZENNE, of the Paris Faculty."

ASTHMA CURED.

We owe it to truth to state that all the Physicians who have prescribed to their patients GRIMAULT & Co.'s INDIAN CIGARRETTES are unanimous in telling them that their effect in ASTHMAS, CHRONIC CATARRHS, and INFLAMATION OF THE MUCOUS MEMBRANE OF THE NOSE, PALATE AND BRONCHLÆ is most surprising.—*Vienna Medical Gazette* (Austria).

SICK HEADACHE AND NEURALGIA VANQUISHED.

"By taking one of the GRIMAULT & Co.'s GUARANA Powders and remaining quiet when I have premonitory symptoms of SICK HEDACHE by a beginning of pain, I have put it off for two months (something which had never occurred in my life before). DR. WOOD, Montreal."

Beware of counterfeits! The genuine preparations of GRIMAULT & Co. bear a Stamp with their Trade Mark and the Seal of the Government.

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, OCT. 3.

A BREAK in telegraphic communication, *vid* Suez, has retarded the receipt of yesterday's telegrams from home. Private messages came to hand late in the afternoon, but Reuter's were not delivered up to the close of business. This has naturally tended to increase the dulness otherwise current, and in all branches of trade to-day has been singularly wanting in life.

EXCHANGE has again shown an easier tendency. Bank Bills forward have been placed at previous rates, say, 1s. 7 31-32d. for demand for November-December, but there is very little private paper offering, and ready documents for payment have been done at 1s. 8¼d., a decline of 1-32d. from yesterday. We still quote for ready bills :—

Bank Bills on demand	.....	1s. 7 15-16d.	per rupee.
Do. Telegraphic	.....	1s. 7 27-32d.	,,
Do. 3 months' sight	.....	1s. 8d.	,,
Credits, 3 ,,	,, ...	1s. 8 7-32d.	,,
Documents 3 ,,	,, ...	1s. 8d.	,,
Francs, 3 ,,	,, ...	2-13¾	,,

On Calcutta rates are unaltered at ¼ per cent. premium for demand, 7-16 discount for 60 days' sight.

GOVERNMENT PAPER is very quiet with next to nothing doing. Fours we quote at Rs. 99 11-16 to ¾ ; Fours-and-a-half at Rs. 106¾ to ⅞.

SHARES.—The tone has been slack, and quotations are only altered in very few instances. Banks are unaltered throughout. In Press Companies we note a decline of Rs. 25 in Akbar and Rs. 2½ in Mofussils. Spinning and Weaving Mills are dull. An advance of Rs. 5 is established in Alliance and Manockjee Petit, but Coorlas are Rs. 10 lower.

A report issued by the Directors of the Hongkong and Shanghai Banking Corporation shows an extraordinarily good result, as compared with other banks doing business in the East. For the six years ending 30th June last they have declared an average dividend of upwards of 10 per cent. per annum, whilst 22½ lakhs of dollars have at the same time been added to the Reserve Fund, equivalent to about 7 per cent. per annum. In other words, the net earnings of the institution have been slightly over 17 per cent. per annum ; and in view of the increased business accruing, the Directors now propose to enlarge their capital by the issue of 20,000 new shares of £40 each, to be allotted to existing shareholders in the proportion of one new share to every two old ones. As the old shares are now quoted at £54-10, the new issue will, no doubt, be eagerly taken up, and such an addition to the capital of a well-managed banking concern is bound to be received with favour by the entire mercantile community. Although well and favourably known in Bombay, the operations of the bank are mainly in connection with China and Japan, and the only wonder is, in view of the remarkably favourable results which we have mentioned above, that other exchange banks having agencies in the same direction have not managed to secure a proportionate share of profits.

In CORTON to-day, owing to the absence of home telegrams, there has been nothing doing for export. Prices are nominally unaltered, but dealers are willing sellers, and would accept a reduction from nominal currencies to effect clearances of old stocks. Not that there is only large holding of old stuff either here or up country, but the new crop promises so well, and the home accounts are so weak, that a very low level of prices is anticipated during the coming season.

SEEDS and WHEAT are quiet and unaltered. The only business doing is in Linseed, of which there are moderate supplies, and exporters still [illegible] Rs. 5-9 to Rs. 5 9½ per cwt.

[illegible] at unchanged quotations. For [illegible] weight and 22s. 6d. [illegible]

COAL [illegible] offering by first import [illegible] been done lately so far as we can [illegible] shippers being about as 8 per ton over prices [illegible] by buyers.

The Bombay Gazette

WEDNESDAY, OCTOBER 4, 1882.

Two important contributions have just been made to the discussion of the scheme for establishing agricultural banks in India. These are a note by the Hon'ble C. H. T. Crosthwaite, and remarks thereon by Mr. Javerilal Umiashunkur Yajnik. The papers are of exceptional value, inasmuch as the first represents the views of an experienced official, and the second the comments of a native banker. While fully [illegible] the diffi[illegible]ich must [illegible] [illegible]s, &c. The circumstances which [illegible] an advance include a detailed [illegible] of amount desired and objects [illegible] money is intended ; an agree[illegible]e funds to no other purposes, [illegible]tanding that any misappro[illegible] nature will render the party [illegible]ion for having obtained money [illegible]es ; a declaration of the [illegible] credit, position in society, Provinces. It was, he considers, "feeble from the first. The capital advanced by Government was much too small to pay the expenses of working it. It is, therefore, useless to condemn the experiment on account of the expense incurred in administering it." There is an old-established dislike to a Government appearing among the people in the capacity of a money-lender. The prejudice is not quite unreasonable. No Government cares to incur the odium attached to usury, and the objection is so far natural that no Government can hope to obtain the gains which induce the money-lender to submit to popular contumely. It is admittedly open to question, however, whether the inauguration of a sound and honest credit system by a Government would not put an end to the malpractices which are associated with the business of money-lending, and with them the popular indignation which they have engendered. There is a further objection, that a Government as a creditor is apt to be either inconsiderately severe, or foolishly lenient. If it be severe, it recovers its advances at the cost of popular hatred, and with the certainty of driving the borrower to the professional financier, whose interest it is to conceal the hand of iron well within the silken glove. Mr. Javerilal appreciates this argument, for he says it is "worthy of note that cultivators, as a rule, prefer the Bania or the Marwari money-lender, with his high charge for interest, to the Government, whose rate for advances is decidedly reasonable. "The fact is," Mr. Javerilal reasons, "the money-lender has been found to be more accommodating, which the Government is not." The opinion which Mr. Javerilal attributes to the ryot would, without doubt, be the natural inference drawn from a limited or casual acquaintanceship with Government credits. The improvident cultivator would possibly be obligingly accommodated, at ruinous interest and with polite phraseology, long after the Government had closed its coffers against him. But the victim of the Marwari would soon run his course, and the accommodating disposition of the money-lender would also come to an end. After a short experience, therefore, the improvident cultivator would succumb before his more thoughtful rival who was borrowing money at six or seven per cent. against twenty or twenty-five per cent. paid to the Marwari.

Excessive leniency, on the other hand, though more agreeable to the borrower, would in the end prove more disastrous to the system. In many cases in which the Government have come to the rescue of the ryot, on previous occasions, the money has been advanced without proper care being taken that the cultivator would be able to pull through even with temporary aid, or that the money would be applied to the purposes for which it was advanced. "It has not unfrequently been the case," says Mr. Javerilal, "that loans obtained for a well have gone to pay debts due to the Marwari creditor, and Government, not finding money or money's worth with the cultivator, have had at last, as in the Deccan, to write off several lakhs of rupees, as bad debts." It is evident that errors of this character could only have been committed when the advances were unsystematically made without the supervision of a specially qualified department. But the details of the scheme, as advocated by Mr. Crosthwaite, would obviate such dangers. He is anxious to adopt the scheme of Government advances to the existing financial organisation of the agricultural system. This idea was very fully explained by Sir William Wedderburn in these columns. Sir William's remarks are so apropos that they deserve to be requoted :—"It would be a great mistake if land banks were to take up a position of antagonism with regard to local capitalists and the existing system of business. The object should be, not to subvert or set aside the existing machinery for the distribution of agricultural capital, but to co-operate with it, to organize and regulate it ; bringing in the local money-lenders as shareholders, holders of mortgage debentures, depositors, agents, and brokers ; conducting the business, in fact, as it is now conducted by a really respectable Marwadi firm, with the same economy in details and the same exact knowledge of the borrower's means and character. And, however much the banks might be developed, there would always remain ample room for individual enterprise. . . . Indeed, the village money-lenders would probably find it a great convenience to borrow capital from the bank and distribute it in small loans among the ryots, just as retail shop-keepers get their supplies from wholesale establishments. That private money-lenders can hold their own even where land banks are most developed is shown by the experience of European countries." Citing the case of the powers conferred on Improvement Companies by the English Land Improvement Act of 1864, Mr. Crosthwaite says :—"It might be enacted that any bank or firm of money-lenders whose position and character were approved by the local Government might avail themselves of the benefits of the Land Improvement Act if they conformed to rules and conditions laid down for them." The rules and conditions suggested are the following :—"*(a)* The books should be kept in a prescribed form, and should be open to inspection by the Collector or one of his Assistants ; *(b)* bonds should be in forms to be laid down in the rules ; *(c)* every loan should be registered at the Collector's office, or reported to the Collector's office at the time it is made ; *(d)* the maximum rate of interest should be laid down in the rules." In consideration of conforming to these regulations Mr. Crosthwaite proposes that the following privileges should be granted the banks :—"*(a)* The remission of part of the stamp-duty on bonds ; *(b)* the remission of the whole or part of the court-fees on suits brought to recover sums due on account of loans or interest ; and *(c)* the execution of decrees through the Collector in the manner prescribed for the recovery of advances made by Government." Mr. Crosthwaite's Mr. Javerilal approves of, [illegible] an additional privilege proposals, but su[illegible] at all needful and reasonable assistance to be rendered to the bank by taluka or district officials of all grades, whether in the recovery of claims, or in respect of information as to the circumstances or position of a particular agriculturist, his debts, the extent of Government land he cultivates, the amount of assessment he pays, &c." Mr. Crosthwaite is not at present prepared to extend those privileges to the case of the village money-lender. "It is possible," he believes, "that the two measures advocated would prove sufficient to cheapen money sensibly." The cheapening of money under such circumstances would undoubtedly tell very soon on the village capitalist. For a time, no doubt, he would become very accommodating, and would advance somewhat recklessly, but in the end he would have to conform to the usages and terms of the bank.

It will be observed that the question of implicating the Government in the odium of collection is not directly touched by either Mr. Crosthwaite or his commentator. But both gentlemen reckon on the practical assistance of the Government being extended to the banks. The execution of decrees through the Collector, as proposed by Mr. Crosthwaite, and the employment of taluka and district officials to recover claims and collect information, as suggested by Mr. Javerilal, would involve the Government almost as much as if they were the actual lenders. But it must be noted that the system on which advances would be made, accepting the proposals of Mr. Javerilal, would avoid a good deal of the objectionable feeling which is usually harboured against the Marwari. Advances would be made only for legitimate purposes, such as the purchase of seed and agricultural implements ; the maintenance of the cultivator and his family during the interval between the cultivating and harvest seasons ; the payment of the Government demand ; and land improvements, such as sinking a well, re[illegible] road, making a water-course, [illegible]

[illegible] assets and liabilities ; no loans to be given to agriculturists whose unsecured debts exceed twice their gross annual income ; and, finally, the advancement of loans on the security of moveables not of a perishable nature, and on immoveables such as lands, fields, houses, &c., up to limits assigned in each case. In his "Remarks" Mr. Javerilal touches on a deep subject, namely, the policy of the Government in rack-renting the ryots. Mr. Javerilal believes that unless the Government abandon this course "our efforts to free the ryots from the clutches of the soukar would be of little avail." Without going into this question now, it may be assumed that the ultimate effects of establishing a rational system of credits would be to prove one way or another the soundness of the Government theory, that too much marginal profit left to the cultivator inevitably finds its way to the pockets of the Marwari. Both Mr. Crosthwaite and Mr. Javerilal recommend a limited trial of the system, the latter suggesting one district in Guzerat and another in the Deccan. Without hazarding, any more than these two authorities, too sanguine expectations of the experiment, we think the case put forward is quite strong enough to justify a trial. The Hon'ble Mr. Mundlik is, we believe, preparing a Bill which, if passed by the Legislative Council, will enable the scheme to be tried in a manner that will give it a fair chance of success.

THOSE who have rashly jumped to the conclusion that because the police interfered with the music of the Salvation Army, they were in some sort *participes criminis* with the Mussulmans who allowed their zeal to get the better of their discretion on Sunday night last, may be reassured by hearing what has befallen the Moulvie who appears to have had the principal hand in stirring up the excitement amongst the Mohammedans. From the inquiries of the police it was, we understand, pretty clearly shown that a particular Moulvie was especially active in getting up processions in opposition to the Salvationists. The same individual was found to be the principal mover in the disturbance which took place on Sunday evening. He is not a native of Bombay, or even domiciled here, but has come hither from Delhi, apparently as a bird of passage. With a view to putting a stop to the disturbances of which he was likely to become the centre, the police on Monday requested him to return forthwith to Delhi. On the same evening he was escorted to the railway station and seen off to his own country, where the Salvationists will not trouble him, nor he them. Will Mr. Keshub Chunder Sen and the other Brahmo Somaj men in Calcutta, who are so indignant with the Bombay police for interfering with the open-air demonstrations of the Salvation Army, be equally indignant at the action of our police authorities in regard to this obstreperous Moulvie ? In Bombay we flatter ourselves that we know what public spirit means as well as our friends in Calcutta do. But instead of seeing police *zulum* in what has taken place, we see a provident regard for the public peace. We have had some experience of what an outbreak of religious fanaticism may effect in the twinkling of an eye amongst a population so varied in race and creed and in degree of civilisation as our own, and we have no desire to see Sidis and Pathans *et hoc genus omne* settling controversial topics with "Major" Tucker and his fellow soldiers. The quarrel would not be confined to those that brought it about.

IT is sad to hear that coffee stands a fair chance of sharing with the potato and the grape the prospect of early extinction. What the phylloxera is to the vine and the Colorado beetle is to the potato, a certain miserable fungus is to the coffee-plant. The fungus in question in sheer wantonness gets on to a leaf of a plant, spreads over all the leaves, kills them, and thus causes the plant to die. It goes on to the other plants in the plantation, kills them, and then visits all other plantations within reach. In this way it has spread dismay and ruin throughout most districts of the hill country of Ceylon. From Ceylon it took passage to the Feejee Islands, and was in a fair way to ruin the planters there too, when the local Government interfered, and buying up the affected plantations, destroyed all the plants by fire, and so checked the plague. The wicked fungus took ship to Java, and is doing great mischief to the plantations there. It has not as yet got to Brazil, being deterred possibly by the fact that the Portuguese haziendas have been already taken in hand by another pest which promises to work sufficient mischief unaided. In Ceylon a large number of valuable plantations have been destroyed ; many have been abandoned, and many more are to be had for a song. Planters have emigrated to the Feejees—carrying with them their cryptogamic enemy. It may be supposed—to Australia, to India and elsewhere. All sorts of infallible nostrums have been tried, but without making any difference to the fungus. Now there is an expert from Kew Gardens who has been to the Feejees, and is confident that with the fumes of carbolic acid he can stay the plague. If he can do so, well and good : unborn generations shall have coffee ; if not the probability is that our posterity will have to put up with chicory, pure *et sans reproche*. Meanwhile how are the plants in the Wynaad faring ? The fungus has left its first home—Ceylon—and established itself in Southern India. It kills the leaves and threatens the plants. But in those parts threatened plants live long, thanks to the splendid soil, which nourishes them when they have scarce a leaf left. So the Wynaad may pull through—if the soil be not overtaxed by being made to grow coffee-plants without rest or respite for several generations.

OUR Simla correspondent, writing on Friday last, says :—"Up to the moment of writing no orders have come for the return of our troops. There seems to be still some doubt as to the extent to which our troops will be withdrawn, as I explained before. It is thought that the desire to bring some regiments back is owing to a wish to do away with any impression that might exist as to our ultimate intentions with regard to a permanent occupation. It is considered as certain that a somewhat large force will be left in Egypt until order is restored, and I fancy it would be premature to form any opinion as to *what* troops will be withdrawn until actual orders arrive from the Home Government. The authorities here are completely in the dark. No telegrams have been received from Sir Garnet since Friday last—exactly a week."

THE EGYPTIAN CAMPAIGN.

LONDON, OCT. 3, MORNING.

Latest advices from Egypt state that Sir Garnet Wolseley is expected to leave for England on October the 20th.

Action is to be taken immediately with respect to the scheme for the reorganization of the Egyptian army.

The Duke of Connaught reviewed yesterday the Indian troops at the Abassieh Barracks. His Royal Highness expressed great satisfaction at the men's appearance.

Refugees are returning to Egypt wholesale.

THE CALCUTTA MUNICIPAL ELECTION

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, OCT. 3.

The Municipal elections passed yesterday very quietly, the Baboo element vastly predominating. Some excitement was caused by permission being given to accept votes for Rajendralala Mittra, despite a High Court mandamus disqualifying him.

SYMPATHY WITH THE SALVATIONISTS.

A public meeting, initiated by missionaries and Keshub Chunder Sen, is to be held, strictly sympathising with the Salvationists convicted in Bombay. A resolution will be passed protesting against the action of the Bombay Government in limiting the rights and liberties of the people by the action taken in the arrest and prosecution of the members of the Salvation Army.

THE BURMAH RAILWAYS.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, OCT. 3.

The *Rangoon Times* reports the failure of the efforts of a Glasgow syndicate to purchase the Burmah State Railways. The project was recommended by the local and Indian Governments, but the Secretary of State, acting on the advice of Sir Ashley Eden, determined to keep the railways in Government hands. Whilst approving of the resolution, the *Rangoon Times* points out that Government should at once meet the requirements of the traffic, as although the Prome line has been open for five years, the rolling stock and shed accommodation for grain is scandalously inadequate.

HIS EXCELLENCY THE GOVERNOR expects to arrive at Mahableshwar on Friday, the 20th inst. How long Sir James will remain at that pleasant autumn retreat, is not yet known, but we believe His Excellency contemplates undertaking a tour before returning to Bombay for the cold season.

THE Supreme Government, the *Pioneer* hears, will probably issue some sort of reply in reference to the very unsatisfactory Resolution on local self-government published by the Bombay Government.

WE regret to hear that locusts continue to cause serious damage to the crops in the Ahmednagar, as well as in the Nasick districts. The *Dnyanodaya* says that "in view of the not slight possibility of future ravages by the locusts, which are still about and whose eggs are in the ground, the grave question with many farmers in some parts of the Ahmednagar Zilla is whether to sow the second crops or not."

OF the twenty-one policemen charged with cowardice during the Salem riots, six have been convicted and sentenced to six weeks' imprisonment and the remainder discharged. Mr. Waddy, barrister-at-law, appeared for their defence.

MR. VIZIARAGAVA CHARRY, Vakil of the District Court of Salem, Graduate of the Madras University, and Municipal Commissioner, who was arrested at Madras on a charge of being concerned in the recent Salem riots, was put before the Special Magistrate on Sept. 29. Mr. Pritchard, barrister-at-law, who appeared for the accused, stated to the Court that his client had done good service to the State in connection with the Salem riots of July last, he having reported the outbreak to the Assistant Collector. He was remanded to jail, bail being refused.

MR. W. C. TURNER, late Judge of Agra, has been permitted to resign the Civil Service.

THE Persian opium trade with China is being pushed. The s. s. Calder was recently chartered at Bushire for carriage of Persian opium to Colombo for China, and she expected to receive 700 chests at Bushire and 300 at Bunder Abbass.

COLONEL G. C. ROWCROFT, S. C., commanding the 40th Bengal Native Infantry at Barrackpore, has taken over command of that station from Colonel G. H. J. A. Fraser, Royal Artillery ; Colonel Fraser's five years as full Colonel terminating on that date.

MAJOR-General E. F. BURTON, Madras Staff Corps, arrived in Calcutta last week from Burmah. General Burton has been officiating in command of the British Burmah division for Major-General F. G. Kempster, M. S. C., who recently returned to Rangoon from leave. General Burton, now retired, is on his way to England.

NEW regulations regarding the uniform of officers of the Bengal Staff Corps and the Viceroy's Body-Guard are published in "General Orders by His Excellency the Commander-in-Chief."

THE latest official report on the state of the season and prospects of the crops in the Punjab, for the week ended 26th September, states :—"No rain has fallen in the districts reporting during the week. Fever is prevalent in some districts, but the health of the province is generally good. Prices of food grains are falling in the Delhi, Jullundur, Ferozepore, Rawalpindi, and Dera Ismail Khan districts : and are stationary in the others. Prospects of crops are reported to be good in all districts, except in Sirsa and Umballa, where they are below the average."

THE comet which for some days past has been attracting the notice of the general public has given rise to all sorts of ideas in the minds of the ignorant natives. It is the general belief that comets are forerunners of disagreeable events. Owing to good rain, of course no fears are entertained about the crops, but the natives think that we have not yet seen the worst of the Egyptian war.

By way of "a pleasant relief from the monotony of public affairs, which has ensued upon the conclusion of peace in Egypt," the *Pioneer* gives insertion to a long leading article descriptive of the supposed-to-be-possible evil effects from the presence of the comet. It appears that a comet may strike the earth, in which case, according to Professor Newcomb, of the Naval Observatory at Washington, "the effect would be terrific beyond description." To quote the Professor further,

> At the first contact in the upper regions of the atmosphere the whole heavens would be illuminated with a resplendence beyond that of a thousand suns, the sky radiating a light which would blind every eye that beheld it, and a heat that would melt the hardest rocks. A few seconds of this while the huge body was passing through the atmosphere, and the collision at the earth's surface would in an instant reduce everything then existing to fiery vapour, and bury it miles deep in the solid earth.

Another danger that may be apprehended by people who are fond of frightening themselves by imagining dreadful things is that the comet may strike the sun, in which event the effect on the earth would be even more serious, as Mr. Proctor says that the light of the sun would be greatly enhanced that it would burn up all the inhabitants of the earth, though the contact only lasted a few days. May the comet continue its present course, which appears to be retreating from, instead of approaching, the sun. We have no desire to be burned up yet, though the *Pioneer* seems to think it would be rather a good thing as contributing "a little spice to life in this rather dull country."

AN up-country paper points out that the Indian railways might develop a very large parcel traffic but for the prohibitive rates of carriage charged. In England a parcel weighing one pound can be sent by rail fifty miles for fourpence and any distance for sixpence, and a seven pounds parcel will travel thirty miles for sixpence, fifty miles for eightpence, four hundred miles for fifteen pence, and any distance for eighteenpence. The Indian inland parcel rate is generally one pound for eight annas (say one shilling), and increases in the charge for each pound up to a considerably heavier maximum. The new railway rate for parcels, fixed by the recent Conference, will be one rupee six annas for a five seer parcel carried 700 miles, and this should yield a very handsome return to the railways. Our Allahabad contemporary remarks that "the very poor business done by our Indian lines in the way of parcels, as compared with the enormous development of this on English lines, is a disgrace to our Railway Managers, and we feel sure that, if more attention is given to the matter, it will amply repay the trouble."

THE *Indu Prakash* sympathises with the Salvationists, not as approving of their teaching, but as regretting to see the "liberty of the subjects" interfered with in the matter of the suppression of their out-door demonstrations. The *Prakash* says :—"We do not share in their religious persuasion, neither are we at all favourable to the cause of any missionary enterprise having for its sole avowed object the weaning of unsuspecting, ignorant people from the religion of their fathers to a religion which, by the confession of some of its own professors, is not altogether all that can be desired, nor have we any faith in, or apprehension from, the proselytizing efficacy of the Salvationists. We raise our voice in their behalf because we are persuaded that they have been treated with undue severity, and that the action of the police in this matter is a serious interference with the freedom of the subjects. The right of using the public streets for processions, whether for religious or social purposes, is, we think, a right belonging to every citizen, and any violation of it deserves to be well guarded against." Some danger of a breach of the peace as a consequence of the Salvationists parodying the natives' religious observances, is admitted, but the paper appears to think that "Major" Tucker and his companions ought to have been allowed to get their heads broken in vindication of "the freedom of the subject."

THE organ of the American Marathi Mission, the *Dnyanodaya*, writing on the subject of the reception "Major" Tucker and his "brother officers" have met with in Bombay, says :—

> The Salvation Army has begun its work in Bombay. Its opening march was viewed with curiosity by immense crowds, with ridicule by thousands, with disgust by some Europeans ; and yet we presume that the members themselves consider it all that they expected. Undoubtedly its methods are not the best methods for all classes, but it very distinctly disclaims any expectation of seriously affecting the educated portion of the community. Time alone will tell whether it can do anything like the same amount of good among the more ignorant part of this country which it has confessedly done in England. We believe that the authorities are sure to have to abandon the position which they have taken of prohibiting processions and music by this Muktifauj, just as the authorities had to give up the same position about this same Army in England, and just as the Indian authorities have had to abandon every restriction on missionary operations here which they did not equally put upon all others, from the day that they imprisoned and deported the first missionaries, to the late arbitrary and illegal act of the Calcutta Police Commissioner. Natives often say that Christianity spreads in India only because the Government favours Christians. Such action as that by the Bombay and Calcutta police, and the open dislike of missionary efforts by a large number of officials look a great deal like this !

AN ingenious but unprincipled means of making a livelihood is described by the Conservator of Forests, Punjab, in his lately-published report. A man of the Jhelum Division, Gurditta by name, gave himself out to be a Government servant ; and accompanied by two spurious chuprassis, travelled along the banks of the Jhelum, selling stranded timber to as many simple buyers as he could find. The affair, in due course, came to the ears of the Government. Gurditta was arrested ; and when he escaped, was arrested a second time, and sentenced to imprisonment for a long term ; the chuprassis also getting six months' imprisonment and a fine of Rs. 50 each. The report does not say what became of the deluded people who bought the stranded timber.

A CORRESPONDENT, "Audio et Video," sends to the *Pioneer* an account of an episode in the life of General Sir Herbert Macpherson, of which he has been reminded by the storming of the right of Arabi's position at Tel-el-Kebir by the Indian Contingent under that gallant veteran. The correspondent writes of events of which he was an eye-witness. He says :—

> During the Mutiny of 1857 Lieutenant Herbert Macpherson was Adjutant of the 78th Highlanders. In that capacity he was present in the campaigns in Oudh under Sir H. Havelock. Whilst we were encamped at Munguiwat during the first advance of General Havelock on Lucknow, intelligence was given that the enemy had occupied in force a position near Busheeratgunge on the Lucknow road . . . From papers subsequently found in Lucknow the enemy under Captain Fedda Hossein numbered twelve thousand men and fourteen guns. Our troops, inclusive of artillery and cavalry, were under one thousand men and eight guns. The crest of the mounds to the right had been cut through with embrasures, and a regular position formed for six guns with stakes and trenches leading down to the road ; three guns were in the village,—two in the tope to the left, Two more guns were in support on the mound to the immediate rear of the great mound. The guns were manned and served by the Oudh Local Artillery, and were all Government artillery guns. On approaching the well at the bend in the road, the troops were deployed to the right and left in echelon of regiments . . . The fire from the large mound was so hot and well directed that, when the troops came within range, the order to lie down was given . . . The 78th had not been lying down more than a quarter of an hour for the right to take up their appointed positions in the attack, when the enemy got their range, and a dose of grape knocked over eight or ten of them. Macpherson on this shouted out—"I say, boys, we are not going to stand this ;" and went forward, followed by the 78th. The great mound was carried with two of the guns, the horses of which had been knocked over, and which could not, therefore, be withdrawn. These guns were ready loaded. It was the work of a minute for the Highlanders to slew round the loaded guns and administer a dose of their own mixture to the enemy as they topped the mound in their immediate rear, which they instantly evacuated, withdrawing the guns in support. After the large mound was carried they fell back from the village and tope of trees to their left, and the day was gained.

THE *Pioneer's* special correspondent in Egypt reports that amongst the things found lying on the ground in the enemy's camp at Mahsamch were a number of small tubular tin boxes, with a cord attached for suspending round the neck. The boxes contained a roll of paper on which was Arabi's proclamation of a Jehad. The same correspondent relates the following instance of mutilation :—"The day after this fight (Mahsameh) a man of the Life Guards was found on the field lying under his horse with his eyes gouged out, and his hands and feet cut off. It is supposed, from his position, that these cruelties were perpetrated while the poor fellow was still alive."

THE SOUTH-WEST MONSOON.

TELEGRAPHIC WEATHER REPORT.

SIMLA, Oct. 2 :—The barometer has risen over Southern India, as well as over the Bombay Presidency south of Surat, and in Burmah. Elsewhere it has fallen, and the depression recently noticed stretches from Benares southward over Rewah and Sirgujah. The centre is distinctly marked, and the surrounding gradients have slightly increased. The wind is southerly over Burmah, the Bay, and Bengal ; north-west in the upper Gangetic valley ; and north-westerly or westerly in most other parts of India. At Sutna the north-westerly wind blows strongly. The skies remain cloudless in the Punjab, parts of Rajputana, and the north of Bombay ; but elsewhere there is much cloud, and at Sutna the rainfall is exceptionally heavy. Rain to-day :—Sutna, over 8 inches ; Cochin, nearly 3 inches ; Masulipatam, over 2½ inches ; Rangoon, 1½ inch ; Purneah, Mercara, and Diamond Island, between ½ and 1 inch. Previously, Mirzapore had nearly 6 inches ; Cuddapah, 4 inches ; Jaunpore, 2½ inches ; Goa, 2 inches ; Nellore, Rajahmundry, Akola, and Thayetymo, between ½ and ¾ inch.

THE *Pioneer* of Monday says :—Heavy rain fell in Allahabad during the past 48 hours, nearly 4 inches having been registered up to noon yesterday.

THE JOONAGHUR STATE.

THE Nawab of Joonaghur, who died last Saturday, leaves behind him several children, of whom Bapu Meean, being the eldest, will succeed to the *gadee*. The State of Joonaghur is in the Soruth district of Kattywar. The revenue is estimated at 15 lakhs, and the population at 380,921. It pays a subsidy of Rs. 28,324 to the British and Rs. 36,413 to the Gaekwar every year. The forces consist of 1,270 sowars, 3,750 infantry, and eight guns.

ADVENTURES OF A PORTRAIT.

A CORRESPONDENT writes to an up-country paper :—

> The historic* Gungadhur Shastry and Genera Alexander Walker, first Political Resident at Baroda and afterwards Governor of St. Helena, met each other in the year 1802 A. D., and, after being engaged in the common work of reforming the Gaekwar's administration and consolidating the friendly relations between the Gaekwar and English Governments, separated, when General (then Colonel) Alex. Walker finally left India for good in A. D. 1810. At the time of his departure the worthy Major, who had contracted a strong friendship for the Shastry had taken with him to Europe a portrait of Gungadhur Shastry. The fact was unknown to the Shastry family, and they regretted not being the possessors of a good painting of their founder, although some sort of a likeness existed in the art collections of the Shastry family and H. H. the Gaekwar. In the meanwhile General Alexander Walker had died in A. D. 1831-32, and all connection thenceforward ceased between the Walker and Shastry families.
>
> This want has lately been filled up in the following wonderful manner : Durukdar and Sirdar Bulwant Rao Vinayak Shastry, J. P. of Shastry Hall, Tardeo Road, Bombay, a member of the Bombay branch of the Asiatic Society, who has been long known for his antiquarian turn of mind, found amongst his family papers a letter, dated 24th November, 1815, from General Alex. Walker to Gungadhur Shastry [who in the meantime was assassinated on the 14th of July, 1815, by the treacherous Baji Rao Peshwa, the adoptive father of Nanasaheb of the year 1857 celebrity] alluding to a picture of his grandfather, the historic Gungadhur Shastry. This naturally excited a desire to have at least a photographic copy of the original drawing in the breast of the grand-son, Sirdar B. V. Shastry. To gratify this desire, and to renew the old connection between the two families as enjoined upon all his descedants by Gungadhur Shastry in his testamentary will, no means were at hand, and the Sirdar had to wait for the chapter of events to fulfil his wishes. This chapter of events brought the appointment of Sir James Fergusson, Bart., to the Governorship of Bombay, and a meeting between Sirdar B. V. Shastry and the Governor. During the course of conversation, Sir James accidentally mentioned his acquaintance with the son of General Walker. Upon this, the Sirdar expressed a wish to forward a letter to General Walker's son through Sir James. The Governor kindly complied and the letter was sent. This sketch of the letter by Sir James had a miraculous effect ; for a month ago Mr. Walker, the son of the deceased General, not only forwarded a very kind letter to Sirdar B. V. Shastry, but the original picture itself after buying all the charges from Scotland to India. Thus has the old friendship between the Walker and the Shastry families been renewed, and a historical portrait lost to India for seventy-two years been recovered by the generosity of Mr. Walker.

* Historic, because this personage is described in all Histories of India, and because his assassination led to the downfall of the Mahratta Empire.

PARSEE CHARITY.—The sum of Rs. 10,500 was subscribed to several charity funds of Bombay by the relatives of Bai Pootlibai, grand-daughter of Mr. Heerjibhoy Hormusjee Sethna, deceased, at her third-day's funeral ceremony on Monday last.

BOMBAY NATIVE DISPENSARY.—The total number of new patients treated during the last month at the head branch of this institution, Dhobitalao, was 1,971, the average daily attendance being 253. The prevailing diseases were malarious fevers.

THE ROOKMINIBAI DISPENSARY AT CALLIAN.—During the month of September last 578 patients were treated in this charitable institution, of whom 492 were new admissions (including 1 indoor patient). 370 were cured, 93 absented, and 112 are still under treatment. This includes 86 remaining from last month.

THEFT AT DOONGREE.—Kuttow Kessowjee, living on the second floor of a house in Doongree DeSouza street, reported to the police on Monday last that a wooden box containing gold and silver ornaments of the value of Rs. 498 had been stolen from his premises during his absence from home.

AN OLD OFFENDER.—Nanjee Huryram, a noted character, was yesterday convicted by Mr. W. Webb, upon three separate charges, of theft of gunny-bags and a quantity of wheat and other grain, of the collective value of Rs. 20-10, the property of three persons. He was sentenced to an accumulated term of twelve months' rigorous imprisonment.

THEFT AT MATHERPACADY.—Mr. George Gracius, living at Matherpacady, reported to the police on Monday last the theft from his bedroom, on the night of the 1st inst., of a double-cased silver watch by McCabe, with a gilt silver chain attached, valued at Rs. 90 ; also a pair of patent-leather boots and a purse containing Rs. 2-8.

THE BOMBAY S. P. C. A.—The following cases were prosecuted by the agents of the Bombay Society for the Prevention of Cruelty to Animals during the week ending the 30th ult. :—Horses, lame 2, sores on body 1, and sore patterns 11 ; bullocks, lame 8, sore neck 25, tumours on neck 3, emaciated 13, and overloaded 4 ; total number of cases 59.

FATAL ACCIDENT.—A coroner's inquest was held yesterday at the J. J. Hospital, on the body of Vishram Sucoojee, aged forty years. Deceased was a porter in the service of the G. I. P. Railway Company at Warree-bunder station. On the 27th ultimo, while shunting wagons, he was knocked down, and the wheels of a wagon passed over his left leg, and crushed it. His right foot was also seriously injured. He died from the effects of the injuries. A verdict of accidental death was recorded.

FRAUDULENT POSSESSION OF PROPERTY.—Rama Nanoo and Govind Wittoo were yesterday convicted by Mr. W. Webb, prisoner No. 1 of having in his possession two bottles of cocoanut-oil, valued at 8 annas, reasonably suspected of having been stolen or fraudulently obtained, and failing to render a satisfactory account how he became possessed of the same ; and prisoner No. 2 of dishonestly receiving the property, knowing it to have been stolen. Prisoner No. 1 was fined Rs. 20, or in default to undergo one month's rigorous imprisonment ; and prisoner No. 2 was fined Rs. 15, or in default to undergo three weeks' rigorous imprisonment.

TROOPS FROM ADEN.—Her Majesty's transport s. s. Notting Hall, 2,616 tons, Captain A. Hyde, arrived in Bombay harbour yesterday from Aden, which port she left on the 24th September, with the following details, mules, &c :—Lieut. C. M. Dallas and Lieut. E. P. Wood, of the North Stafford Regt. ; Mr. G. C. Walton, Mr. M. J. Goodfrey, and Mr. V. C. Rice, of the Commissariat Transport Corps ; Surg. A. Dowson, of the A. M. D. ; Vet. Surg. F. Dack, of the Vet. Dept. ; 2 warrant officers, 2 sergeants, 2 privates, 16 conductors, 212 drivers, 11 horses, and 653 mules. The animals disembarked at the Prince's Dock, and encamped on the Port Trust land to the north of the dock.

WASH NORTON'S ENTERTAINMENT.—Wash Norton's "Merrymakers" gave their opening performance at the Gaiety Theatre on Monday. There was a fairly large audience, by whom the entertainment appeared to give satisfaction. There was a farce followed by a very clever box trick, similar to that performed by Messrs. Maskelyne and Cook. Mr. Norton then sang some funny songs ; after which he gave some capital impersonations of character, the changes being rapidly effected. A number of feats of jugglery performed by Mr. Norton were loudly applauded.

FINE ARTS EXHIBITIONS.—Referring to the recent Fine Arts Exhibition at Poona, the *Samachar* says :—It is a mistake to hold exhibitions in an out-of-the-way hole like Simla, where the general public cannot easily go. Exhibitions are more useful and instructive to the general mass than to Government officials. A comparatively small exhibition was held in the Sir J. J. School of Art in Bombay some years ago, but since then we have been unfortunate in not having an exhibition of any description, even on a limited scale. We are of opinion that in a central place like Bombay there ought to be exhibitions held every two or three years. There is a museum in Bombay which is a positive disgrace. Very few arrivals from Europe go to this place in expectation of seeing something new, but they invariably return disappointed.

BOMBAY YOUNG MEN'S CHRISTIAN ASSOCIATION.

THERE will be service on board a ship, in the Prince's Dock, at half-past eleven o'clock this (Wednesday) evening. Captains, officers, and seamen are cordially invited to attend. The Bethel flag will be hoisted in the afternoon. The name of the ship will be notified in the Coffee Room at the Dock.

HIGH COURT.—OCTOBER 3.

(Before the Hon'ble Mr. Justice BAYLEY.)

THE NATIONAL BANK OF INDIA *vs.* PADAMSEY TRIKAMJEE AND ANOTHER.

Mr. RUSSELL, instructed by Messrs. Smith and Frere, appeared for the plaintiffs. There was no appearance for the defendants. The suit was brought to recover Rs. 5,000, due upon a bill of exchange dated 12th July, 1882. The Madras branch of the bank discounted the bill and endorsed it to the Bombay branch, which caused it to be accepted by the first defendant on the 17th July. It was presented for payment two days later, but payment was refused on the ground that the acceptor was dead. The suit was brought against his two infant sons by their guardian *ad litem*. His Lordship gave a decree for the plaintiffs for Rs. 5,000, with interest and costs, and notarial charges, against the estate of the deceased defendant.

GOVINDRAM DWARKADAS *vs.* CHITOORDAS JOGOOSHA.

Mr. DHAIRYAVUN, instructed by Mr., Turnerappliedfor a postponement, for the reason that his client wanted to file a written statement. The application was refused ; and the hearing of the suit proceeded, each party appearing by counsel. The defendant admitted the adjusted account produced by the plaintiff to be correct, saying he wanted time to pay the amount by instalments. His Lordship gave a decree for plaintiff for Rs. 2,740, with interest and costs.

KHETSEY JAITHA *vs.* MOOLJEE BHIMSEY.

Mr. Russell, instructed by Mr. Pestonjee Kavasjee for the plaintiff, said the suit was brought to recover money due upon an adjusted and signed account. The claim was proved ; and in the absence of the defendant, the court gave a decree for the plaintiff for Rs. 2,937, with interest and costs.

THE LATE MR. A. H. WADIA'S WILL.

THE Hon'ble Mr. Lang, Mr. Farran, and Mr. Pherozshaw Mehta instructed by Messrs. Chalk and Walker, appeared for the applicants ; Mr. Telang and Mr. Kirkpatrick, instructed by Messrs. Cleveland, Little, and Nicholson, appeared for the caveator, for Meherbai, the widow, and the infant children.

Mr. Framjee Sorabjee Bharocha was recalled and further cross-examined by Mr. Lang.—Large bills were drawn by the firm upon Dickinson, Ackroyd and Co., but I cannot say whether they were drawn every mail. Consignments were made by native shippers through B. and A. Hormanjee upon Dickinson, Ackroyd and Co. I cannot say whether those bills were discounted with the banks. I did not ask to see this consignment book now before me, because I did not consider it necessary. The firm received consignments for sale here from London, Glasgow, and Manchester, and small consignments from France. The firm were Hambro's agents in Bombay, but I can say from the books that they had no open credit. Bills were drawn upon the firm from Zanzibar to the extent of £10,000 per year. The gross total amount of the mill commission payable to the firm amounted to about Rs. 36,000 for the year. I know nothing of an attempt made by Premchund Roychund and Nusserwanjee to take away from the firm the agency of the Coorla mills. I don't know that Premchund began buying shares with that object. From what I have seen of the firm, I think that the mill agency is the most valuable asset of the firm. I had the cash-book of the firm in my hands for inspection, and I inspected it as much as I wanted. The first cash-book I saw was for 1876-77. I saw Mr. Ardasir's initials at the end of each day's account where the balance was struck.

Re-examined by Mr. Telang.—Mr. Ardasir paid Rs. 235 every year for the expenses of a fire-temple in Amroli Gotran near Surat, another sum of Rs. 50 for a Hindoo temple at Malwa, and Rs. 96 per year for a watchman at a tank in Marwar. (Witness was examined as to two or three items of payments made by Hormanjee which were entered in the cash-book as paid to "somebody" and "a gentleman.") Hormanjee showed me the slips of the Government paper for Rs. 1,60,000, but did not show me the paper itself. In the memorandum of assets furnished to me by Hormanjee, some of the assets were overstated. The bill register book was offered to me for inspection as Hormanjee's original bill-book. There were two pages pinned together of the book produced in court, which were not shown me.

Mr. Lang said there was nothing important in those pages, which were now offered for inspection.

Re-examination continued.—Within twenty-one months Hormanjee's operations in Government paper extended over fifteen crores of rupees, for which a cash-book or at least a memorandum book was necessary. He had no capital of his own for that business.

Bomanjee Ardasir Hormarjee, examined by Mr. Kirkpatrick.—I am the fifth son of the late Ardasir Hormarjee and am 18 years of age. I lived in Lowjee Castle up to the time of my father's death. I was on very affectionate terms with him. I used to read to him nearly every night. Hormanjee used to dine out. The Adelphi Hotel, I believe, was his favourite resort. He has ceased to be on good terms with me since a year or a year and a half. We used to speak to each other and he wrote notes to my father. Two or three days after his death, on a Sunday, my mother sent me to the Fort office to fetch certain papers thence. She gave me the keys of a desk and a cupboard which were kept in private rooms on the third floor of the building. I found a lot of letters and several books. There was no cash-book of Hormarjee's among those books and papers. I put the papers and books in two bags and took them to Lowjee Castle. Sheriad was with me. There was no attempt at secresy or concealment in my visit to the office. I returned to Lowjee Castle about 8 or a quarter past 8 a. m. I am a pupil in the Fort High School. I used to go to my father's office. I used to write letters to his dictation. He asked me to read his business letters. I generally accompanied him to Poona and Mahableshwar.

Cross-examined by Mr. Lang.—Hormarjee did not like me, and I did not like him. (Laughter.) Latterly my father came to know about it. Hormarjee did not like me, because I gave out what I thought of him, and openly too. My father's favour towards me went a great deal to make Hormarjee dislike me. He did not tell me he disliked me, but he showed it too plainly. I lamented to my mother that he disliked me, but I cannot say whether she told me in the lamentation. I cannot say whether she disliked him. He tried to run me down by complaining to my father that I was seen loitering in the streets ; that I was irregular at school ; and to crown all, that I was altogether useless.

Mr. Lang.—You have not got a taste for business ; you are more fond of literature ?

Witness.—Well, my tastes are not formed yet. (A laugh.) I went from school to my father at the office, and generally drove home with him. I have never been irregular at school except when ill. My school reports never reported me very irregular ; they might have reported me dull. Before the unpleasantness between us rose, Hormarjee never cared a bit for me. I did not read my own compositions to my father ; they went into the waste-paper-basket. I used to write poetry ; but not now.

The judge.—Did you read your poetry to your father ?

Witness.—No, I did not—no more than my brothers read his novels to him. (Laughter.) I wrote poetry in English more for whiling away time than for publication. (Renewed laughter.) My father was, I believe, anxious that I should take to business. When my brother Hormarjees once laughed at the idea of my writing poetry—he had never seen it—my father said it was an inclination which would pass off with youth. My brother Jemsetjee supported me by saying that Mr. Gladstone, when young, used to write poetry (laughter), and that as far as writing poetry was concerned, I was on the same level as Mr. Gladstone. (Renewed laughter.) That was my brother Jemsetjee's opinion, not my own.

The judge.—When did you last write poetry ?

Witness.—About a year or nine months ago, when I burned all my poetry. (Laughter.) I have kept up my taste for literary pursuits as much as I could

CARLTON WHISKEY.

CARLTON WHISKEY, ELEVEN YEARS' OLD

CARLTON WHISKEY, FIVE YEARS' OLD

THESE GRAND OLD SCOTCH WHISKIES are shipped only by RICHARD MATHEWS AND COMPANY, of London and Inverness, who are sole possessors of the Brand "CARLTON." They are distilled from the finest Highland Malt only, are in every respect equal to the best Cognac Brandy, and guaranteed to be entirely free from Fusil Oil or other noxious impurities.

The following Letter has been received from the Secretary of the "CARLTON" CLUB:—

CARLTON CLUB, Dec. 20, 1875.

Messrs. R. MATHEWS & COMPANY.

GENTLEMEN,—In reply to your inquiry as to whether the Whiskey you are supplying to this Club is approved by the Members, the best answer I can give is that the consumption of this Whiskey in the Club has GREATLY INCREASED since it has been supplied by your firm. There can be no doubt whatever about the Whiskey being MOST EXCELLENT. It is Old and Soft, and I may safely say that it is much approved by the Members.

Yours obediently,
W. GRIFFIN SUTTON, Secretary.

CAUTION.—It has come to the knowledge of the Shippers of the "CARLTON" WHISKIES, that the empty Bottles have been dishonestly refilled with the poisonous trash very often sold in India under the name of Whiskey, this is therefore to caution consumers to CAREFULLY EXAMINE the CORKS and CAPSULES to see they have not been tampered with; also that the Corks, Capsules, and Labels are branded with their Trade Mark.

For Prices and Terms apply to CUTLER, PALMER & Co., Agents for India.

Shippers: RICHARD MATHEWS & Co., "Carlton" Whiskey Merchants, London.

ZOEDONE! ZOEDONE!

A COOL, SPARKLING, DELICIOUS, NON-ALCOHOLIC BEVERAGE FOR DAILY USE.

ZOEDONE—Possesses both Tonic and Bracing qualities.
ZOEDONE—Invaluable to those recovering from Fever.
ZOEDONE—Or Weakened by Sea-sickness,
ZOEDONE—Or those suffering from the enervating effects peculiar to the Indian climate.

ZOEDONE—NORMAN KERR, M.D., F.L.S., under date August 8, 1881, writes:—

"My good opinion of ZOEDONE as a social drink has been amply confirmed by further observation."

ZOEDONE—WILLIAM FOSTER, M.A. (Cantab), F.C.S., &c., Professor of Chemistry at the Middlesex Hospital, Sept. 1, 1881:—

"Its properties are those of an agreeable effervescent tonic."

ZOEDONE—SYED MAHOMED NABI ULLAH, of Allahabad, N.W.P. writes on 1st December, 1881, as follows:—

"Accept my sincere thanks for your idea of introducing ZOEDONE in India. I fear I cannot praise it enough. You know that a vast population of Her Majesty's subjects in India are Mahomedans, whose religion prohibits the use of wine or any other intoxicating liquor. Under such circumstances ZOEDONE is a boon and blessing to them. I think it is a health restoring, strengthening and nourishing beverage. From my own experience and from what I have ascertained from Medical men, I can certify that it is strictly non-alcoholic, and the very drink that the Indians generally and the Mussulmans particularly are in need of."

Price at Agents' warehouses, at Ports of Landing, Rs. 3 per dozen, in cases of 6 dozen pints.
